Technical Skills

Problem Solving: Computational Problem Solving, Algorithm, Data Structure, OOP	Programming Languages: C, C++, Python	Database Management: MySQL, PostgreSQL
Version Control: Git, GitHub	Framework: Django, Flutter, Laravel	Others: n8n, Zapier, Notion

Projects

FinanceAgent

Developed an AI-powered financial research application for real-time stock analysis and intelligent web-based insights. Built a multi-agent system in **Python** with **Groq LLM**, **Yahoo Finance**, and **DuckDuckGo** integration, and delivered an interactive **web playground** for streamlined financial query exploration.

AI-Chatbot

Developed a multi-turn conversational AI chatbot API using **FastAPI** and **Groq LLM**, implementing session-based memory management to maintain context across user interactions. Architected per-session conversation history isolation to enable concurrent multi-user support, and built **RESTful** endpoints for chat messaging, history retrieval, and session management. Containerized the application with **Docker** and **Docker Compose** for seamless deployment, and included comprehensive unit tests for memory service reliability.

Chat-App

Developed a modular, console-based chat application in Python to simulate multi-user communication and reinforce core **Object-Oriented Programming** concepts. Implemented structured classes for users, messages, and chat room management with features like membership validation, timestamped messaging, chat history tracking, and both demo and interactive execution modes using only standard Python libraries.

Online Judge Profiles

Codeforces	Max Rating: 1195
AtCoder	Max Rating: 243

Actively participated in over **100** programming contests. Solved over **1200** problems on platforms including [Codeforces](#), [AtCoder](#), [VJudge](#), [LeetCode](#) etc.

Achievements

- **4th Place** — National Datathon CUET CSE Fest 2025 (Team: NeuronX)
- **1st Place** — Unlock the Algorithm Fall 2023 (Preliminary: A Slot)
- **12th Place** — Unlock the Algorithm Fall 2023
- **17th Place** — UAP IUPC (Team: DIU_NewComer)

Experiences

Problem Setter & Tester

Set & tested problems for intra-university contests

Session Volunteer

International Conference on Intelligent Data Analysis and Applications (IDAA 2025)

Training Classes

- DIU Take-Off Advanced Camp
- Programming classes on Data Structures & Algorithms

Publications

Md. Jobayer Ahmed Md. Naimul Islam Nuhas, Eiamin Hassan Shanto (2025). “Smart Crop Monitoring: Assessing Deep Learning Architectures for Multi-Class Citrus Leaf Disease Recognition”. In: *International Conference on Intelligent Data Analysis and Applications (IDAA 2025)*. [View Publication](#).

Education

2022 – 2025	B.Sc. in CSE	Daffodil International University (DIU)	CGPA: 3.91/4.00
2015 – 2017	SSC	Purinda K.M. sadekur Rahman High School	GPA: 5.00/5.00
2017 – 2019	HSC	Narsingdi Government College	GPA: 5.00/5.00
